# MVP™ Metering Cartridge

Metering Made Simple

# Metering faucets with MVP™ technology

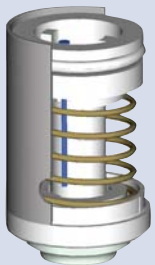

Chicago Faucets is America's leading supplier of metering faucets. Metering faucets prevent faucet run-on and provide safety, ease of operation for all, and water and energy conservation. Chicago Faucets durable metering faucets with the adjustable MVP™ cartridge allow you to control the run-time of water flow for years of water savings you can count on.

The MVP cartridge is easily accessible and adjustable providing water conserving cycle times of less than a minute

## MVP™ - Time-tested performance and industry leading features

671-XJKNF

- Proven performance backed by a 5-year warranty
- Patented self-cleaning feature for longer life span
- Simple cartridge design (minimal number of moving parts) eases maintenance and allows for cleaning and repair of cartridge
- Easily accessible timing adjustment nut allows timing modification (from 1 to 20 seconds) without turning off water supply
- 10 years of proven market performance

MeterMix™... the metering faucet that allows the user to select the temperature while also conserving water. The patented dual stem design uses the dependable, yet affordable MVP™ metering cartridge with proven performance that is backed by a 5-year warranty. Adjustable cycle time allows the installer to customize the faucet run time to site conditions. The 3300-CP is ideal for use in high-traffic commercial lavatories with its ruggedly designed cast brass faucet, vandal resistant .5 GPM spray outlet and a handle that is both vandal resistant and ADA compliant.

#### 3400-CP

- 4" Centerset Single Supply Line
- 4 3/4" Integral Cast Spout
- E2805 - Vandal Resistant Econo-Flo Spray Outlet

**3400-TCP Available with Inlet Tee Connection**

#### 3300-CP

- 4" Centerset Dual Supply Line
- 4 3/4" Integral Cast Spout
- E2805 - Vandal Resistant Econo-Flo Spray Outlet
- Metal Handle with Integral Temperature Control
- Integral Check Valves and Filter Screens

## Chicago Faucets Metering Faucets and LEED

Our metering faucets can help earn water efficiency credits toward LEED certification by providing water conserving benefits in two specific areas of design - **cycle time and outlet flow**. With the metering faucets ability to control cycle time, the faucet can be easily set to cycle intervals of less than one minute, thus reducing water consumption. Additionally, savings through the utilization of a .5, 1.0 or 1.5 GPM outlet device on metering faucets further allows for water savings.

*Note: Metermix faucets are only available with a .5 GPM spray outlet.*

**333-665PSHCP**

- 3 3/8" Integral Spout
- E12 - Softflo® Aerator
- 665 Metering Handles
