Chicago Faucets Cartridges?
A cartridge is the heart of any faucet. It regulates the flow of water and is the single most important component that affects overall performance. From time to time these are necessary, but there can be no substitutes for the quality of a Chicago Faucets cartridge.

Chicago Faucets offers the most extensive selection of commercial-grade cartridges in the industry. You get so much more out of genuine Chicago Faucets parts because we put so much more into them. You can expect the highest quality materials backed by over a century of experience.

We offer over 100 cartridge variations that are designed to meet just about any application or unique situation. On the following pages, we’ll introduce you to some of our most popular cartridges: Quaturn™, Ceramic, MVP™, NAIAD™, Slow Compression and Klo-Self™.

With Chicago Faucets Installed, It’s Your Choice

• Most Chicago Faucets cartridges are completely interchangeable.
• You can change a Quaturn cartridge to a ceramic, a manual faucet to a metering.
• Consistent engineering and precise manufacturing make for a perfect fit.

The Right Cartridge, Right When You Need It

• Find a cartridge for almost any application or situation – Over 100 cartridges available.
• Choose from manual, metering, and self-closing cartridges.
• Many cartridges can be easily rebuilt to reduce maintenance costs.
• Rely on our national network of channel partners to get you the right cartridge, right when you need it.

Unsurpassed Support

• Chicago Faucets cartridges are backed by a 5-year warranty.
• Manufacturing and customer service are located in the United States.
• Technical support is just a toll-free phone call away at 800/832-8783.

Unique Cartridges, Unique Features

Beyond just manual and metering, Chicago Faucets cartridges offer a wide array of unique features to meet the needs of your particular application in healthcare, education, food service, or any other commercial location.

While all of our cartridges are easy to replace, some are also easy to rebuild and are ideal for facilities with dedicated maintenance personnel. Some of our cartridges are better for hard water installations; others meet the latest low lead initiatives. We offer cartridges that provide a positive stop and cartridges with a gradual stop, 90° turn or 360° turn.

The list is almost endless. Just be assured that if you’re ready to update or modify an existing faucet, we have a cartridge that will meet your specific needs.

Ceramic

Polished performance. Precise ground, high polished ceramic discs housed in a durable brass sleeve for long term, consistent performance.

- Fits almost any Chicago Faucets product
- No parts to replace
- Easily replace entire cartridge
- Color-coded seats indicate hot or cold operation
- Positive stop
- 90° turn

Box lots available.

Nickel plated brass stem with tapered end for easy handle replacement

Valve features heavy-duty Acme thread for high strength and tight seal

Grease is isolated from water for long-term smooth operation

Solid brass sleeve

Corrosion resistant Monel seat with rubber O-ring seal

Stainless steel stem, washer, retainer, and nut
MVP™

**Metering valve perfection.** Best for any standard metering application. ADA compliant when used with a 665 handle.

- Helps reduce water usage in high traffic locations
- External timing nut for easy adjustment, no need for water shut-off
- Added filter screen protects against contaminants
- Fewer replacement parts for easy maintenance
- Cartridge closes upon release or within a 2-15 second cycle time
