

**CHICAGO
FAUCETS** 

a Geberit company

The 3500 Series

Sleek, Stylish and Affordable

The newest addition to the industry's leading line of water conserving metering faucets.

A whole new level of style, convenience, and affordability.

The **3500 Series** brings Chicago Faucets quality and a new, modern look to our line of water conserving metering faucets. The 3500 is easy to install, easy to operate, and easy on the budget. It can also help dramatically reduce water use when compared to older, conventional faucets. And since it's from Chicago Faucets, you can count on long lasting operation and simple maintenance.

- **Modern Design at an Affordable Price** – an affordable, sleek look that complements almost any lavatory application
- **Water Savings** – self-closing mechanism provides precise water flow and shuts off automatically; 0.5 GPM (1.9 L/min) outlet and easily adjustable cartridge provide even greater savings
- **Flexible, Convenient** – models available with user-adjustable external temperature control or concealed internal temperature control for added comfort and safety
- **Durable** – handle and non-aerating outlet resist tampering
- **Easy to Install** – flexible stainless steel hoses are pre-installed and connect to standard water supplies; internal temperature control features above-deck access
- **Easy to Service** – time-tested MVP cartridge is easy to adjust; spare parts are readily available for quick change-outs, reducing downtime and lowering maintenance costs
- **Fits Any Application** – basic model installs in single-hole sinks; add an optional cover plate to fit 4" or 8" centers

Single supply for tempered water	
3500-E2805ABCP	Single hole
