Chicago Faucets, a member of the Geberit Group, is the leading brand of commercial faucets and fittings in the United States, offering a complete range of products for schools, laboratories, hospitals, office buildings, food service, airports, and sports facilities. Whatever your requirements may be, Chicago Faucets offers standard and made-to-order products that are designed to meet any commercial application.

Why Chicago Faucets Safety Products?
Accidents happen – that’s a given. When they do, it’s important that you have safety products installed that you can count on. Chicago Faucets, the leading brand of commercial faucets, offers a complete line of safety products that reflect our commitment to quality and were designed to meet the latest ANSI standards and feature:

• Extreme Durability – All materials that contact water are made of galvanized steel pipe, brass, or ABS reinforced plastic. The galvanized steel pipe is coated with an environmentally friendly polyamide plastic, highly resistant to corrosion. Drench shower heads feature four holes designed to prevent restricted flow caused by line scale or other contaminants.

• Easy Visibility – Safety fittings must be easy to find in an emergency. Our new safety fittings feature a high-visibility yellow exterior finish and photo-luminescent signage for easy identification. A maintenance card included with every fitting makes it easy to keep a visual record of important periodic testing.

• Safe, Reliable Operation – Eyewash assemblies offer low-pressure aerated outlets that comfortably flush face and eyes. The outlets feature rounded contours for added safety and dust covers that move out of the way automatically when the unit is activated. The shower and eyewash valves are designed and tested specifically for emergency situations: they will not seize up or become obstructed, even after long periods of inactivity.

• Built-in Compliance – All products are tested and certified to meet the ANSI Z358.1 – Standard for Emergency Eyewash and Shower Equipment.
Chicago Faucets, a member of the Geberit Group, is the leading brand of commercial faucets and fittings in the United States, offering a complete range of products for schools, laboratories, hospitals, office buildings, food service, airports, and sports facilities. Why Chicago Faucets Safety Products?

Accidents happen – that’s a given. When they do, it’s important that you have safe products installed that you can count on. Chicago Faucets, the leading brand of commercial faucets, offers a complete line of safety products that reflect our commitment to quality and were designed to meet the latest ASHRAE standards and feature:

- **Gallons Durability**: All materials that contact water are made of galvanized steel pipe, brass, or ABS reinforced plastic. The galvanized steel pipe is coated with an environmentally friendly polysilicate elastic, highly resistant to corrosion. Drench shower heads feature four rules designed to prevent restricted flow caused by line scale or other contaminants.

- **Easy Visibility**: Safety fittings must be easy to find in an emergency. Our new safety fittings feature a high-visibility yellow exterior finish and photo-luminescent signage for easy identification. A maintenance card included with every fitting makes it easy to keep a visual record of important periodic testing.

- **Safe, Reliable Operation**: Eyewash assemblies offer low-pressure aerated outlets that comfortably flush face and eyes. The outlets feature rounded contours for added safety and dust covers that move out of the way automatically when the unit is activated. The shutoff and eyewash valves are designed and tested specifically for emergency situations: they will not seize up or become obstructed, even after long periods of inactivity.

- **Built-in Compliance**: All products are tested and certified to meet the ASHRAE ZECA 1 Standard for Emergency Eyewash and Shower Equipment.
**Deck Mounted Eye/Face Wash with Push Paddle Handle**
- 1/2˝ NPT male thread inlet
- Anti-corrosive polyamide 11 plastic coating in high-visibility yellow color
- Eyewash assembly in ABS plastic
- Two high flow aerated water spray heads operate at low pressure with automatic opening anti-dust covers

**Model**
- 8401-LHNF: Left Hand Operation
- 8401-RHNF: Right Hand Operation

**Deck Mounted Swing Down Eye/Face Wash**
- 1/2˝ NPT male thread inlet
- Anti-corrosive polyamide 11 plastic coating in high-visibility yellow color
- Eyewash assembly in ABS plastic
- Two high flow aerated water spray heads operate at low pressure with automatic opening anti-dust covers

**Model**
- 8410-MF: Vertical Swing Down Operation
- 8411-MF: Horizontal Swing Operation

**Wall Mounted Eye/Face Wash with Push Paddle Handle**
- 1/2˝ NPT female thread inlet
- Anti-corrosive polyamide 11 plastic coating in high-visibility yellow color
- Eyewash assembly in ABS plastic
- Eyewash bowl in stainless steel or ABS plastic
- Two high flow aerated water spray heads operate at low pressure with automatic opening anti-dust covers

**Model**
- 8421-MF: Eyewash Bowl In Stainless Steel
- 8422-MF: Eyewash Bowl In ABS Plastic

**Single Outlet Eye/Face/Body Drench Hose**
- 1/2˝ NPT male thread inlet
- Anti-corrosive polyamide 11 plastic coating in high-visibility yellow color
- Eyewash assembly in ABS plastic
- High flow aerated water spray at low pressure with automatic opening anti-dust cover
- Lever handle for actuation
- 59˝ Flexible hose in stainless steel

**Model**
- 8407-MF: Deck Mounted
- 8408-MF: Wall Mounted

**Floor Mounted Eye/Face Wash with Push Paddle Handle**
- 1/2˝ NPT female thread inlet
- Anti-corrosive polyamide 11 plastic coating in high-visibility yellow color
- Eyewash assembly in ABS plastic
- Eyewash bowl in stainless steel
- Two high flow aerated water spray heads operate at low pressure with automatic opening anti-dust covers

**Model**
- 8412-MF: Floor Mounted

**Floor Mounted Combination Eye/Face Wash and Safety Drench Shower**
- 1-1/4˝ NPT female thread inlet
- Anti-corrosive polyamide 11 plastic coating in high-visibility yellow color
- Eyewash assembly in ABS plastic
- Eyewash bowl in stainless steel
- Two high flow aerated water spray heads operate at low pressure with automatic opening anti-dust covers
- Pull rod for activation

**Model**
- 8413-MF: Floor Mounted Combination Eyewash and Safety Drench Shower

**Drench Showers**
- 1/2˝ NPT male thread inlet
- Anti-corrosive polyamide 11 plastic coating in high-visibility yellow color
- Horizontal wall mounted
- Pull rod for activation

**Model**
- 8400-NF: Shower Head In ABS Plastic
- 8401-NF: Shower Head In Stainless Steel

**Barrier Free, Recessed Eye/Face Wash and Safety Drench Shower**
- 1-1/2˝ NPT male thread inlet (supply connections)
- 1-1/4˝ NPT male thread inlet (drain connection)
- Anti-corrosive polyamide 11 plastic coating in high-visibility yellow color
- Eyewash assembly in ABS plastic
- Eyewash bowl in stainless steel
- Two high flow aerated water spray heads operate at low pressure with automatic opening anti-dust covers
- Pull handle for activation
- Shower head in stainless steel
- Wall recessed mounting

**Model**
- 8420-NF: Shower Head In ABS Plastic
- 8421-NF: Shower Head In Stainless Steel
- 8422-NF: Wheel Chair Accessible Shower Head In ABS Plastic
- 8423-NF: Wheel Chair Accessible Shower Head In Stainless Steel

**Model Description**
- 8404-LHNF: Left Hand Operation
- 8404-RHNF: Right Hand Operation
- 8410-MF: Vertical Swing Down Operation
- 8411-MF: Horizontal Swing Operation
- 8421-MF: Eyewash Bowl In Stainless Steel
- 8422-MF: Eyewash Bowl In ABS Plastic
- 8407-MF: Deck Mounted
- 8408-MF: Wall Mounted
- 8412-MF: Floor Mounted
- 8413-MF: Floor Mounted Combination Eyewash and Safety Drench Shower
- 8400-NF: Shower Head In ABS Plastic
- 8401-NF: Shower Head In Stainless Steel
- 8420-NF: Shower Head In ABS Plastic
- 8421-NF: Shower Head In Stainless Steel
- 8422-NF: Wheel Chair Accessible Shower Head In ABS Plastic
- 8423-NF: Wheel Chair Accessible Shower Head In Stainless Steel

### Deck Mounted Eye/Face Wash with Push Paddle Handle
- 1/2˝ NPT male thread inlet
- Anti-corrosive polyamide 11 plastic coating in high-visibility yellow color
- Eyewash assembly in ABS plastic
- Two high-flow aerated water spray heads operate at low pressure with automatic opening anti-dust covers

### Wall Mounted Eye/Face Wash with Push Paddle Handle
- 1/2˝ NPT female thread inlet
- Anti-corrosive polyamide 11 plastic coating in high-visibility yellow color
- Eyewash assembly in ABS plastic
- Eyewash bowl in stainless steel or ABS plastic
- Two high-flow aerated water spray heads operate at low pressure with automatic opening anti-dust covers

### Single Outlet Eye/Face/Body Drench Hose
- 1/2˝ NPT male thread inlet
- Anti-corrosive polyamide 11 plastic coating in high-visibility yellow color
- Eyewash assembly in ABS plastic
- High-flow aerated water spray at low pressure with automatic opening anti-dust cover
- Lever handle for actuation
- NSF 253 Listed in stainless steel

### Floor Mounted Eye/Face Wash with Push Paddle Handle
- 1/2˝ NPT female thread inlet
- Anti-corrosive polyamide 11 plastic coating in high-visibility yellow color
- Eyewash assembly in ABS plastic
- Eyewash bowl in stainless steel
- Two high-flow aerated water spray heads operate at low pressure with automatic opening anti-dust covers

### Drench Showers
- 1/2˝ NPT male thread inlet
- Anti-corrosive polyamide 11 plastic coating in high-visibility yellow color
- Horizontal wall mounted
- Pull rod for activation

### Barrier Free, Recessed Eye/Face Wash and Safety Drench Shower
- 1˝ NPT male thread inlet (supply connections)
- 1-1/2˝ NPT male thread inlet (drain connection)
- Anti-corrosive polyamide 11 plastic coating in high-visibility yellow color
- Eyewash assembly in ABS plastic
- Eyewash bowl in stainless steel
- Two high-flow aerated water spray heads operate at low pressure with automatic opening anti-dust covers
- Pull handle for actuation
- Shower head in stainless steel
- Wall recessed mounting
